

WHITEPAPER

RINJANI TOKEN (RNJ)

The Climber Token with a Cause

Version: 1.0 | Release: July 2025

“Climbing to the top, block by block — with the spirit of community and social mission.”

About This Document

This whitepaper outlines the vision, mission, structure, features, and development roadmap of Rinjani Token (\$RNJ). It is dedicated to the hiking community, nature enthusiasts, and Web3 advocates who care about social action, climbing safety, environmental awareness, and education. This document reflects our commitment to transparency and openness to all token holders and potential investors.

1. Vision & Mission

Vision:

To build a token ecosystem that is not only financially rewarding but also brings real-world impact to mountain safety, nature education, and environmental social movements.

Mission:

- Bridging the world of crypto with real-world impact.
- Supporting mountain safety and hiking education programs.
- Contributing to social causes through token allocations and transaction fees.

- Creating an active, transparent, and dedicated Web3 community.
-

2. Problem & Solution

Problems:

- Lack of real-world contribution from most crypto projects.
- High risk of hiking without adequate education or safety gear.
- Poor transparency in project and fund management.

Rinjani Token Solutions:

- Providing a platform that merges Web3 values with social missions.
 - Allocating 5% of the token supply specifically for safety equipment and donations.
 - Developing a charity tracker feature and on-chain public reports.
 - Building a DAO-ready ecosystem with community governance.
-

3. About Rinjani Token

Rinjani Token (\$RNJ) is a BEP-20 token on Binance Smart Chain, designed as a symbol of resilience, ascent, and meaningful action. It embraces a *climb-to-earn* spirit, allowing holders to participate in social, educational, and environmental projects. The token is inspired by the legacy of Juliana Marins, Agam Rinjani, mountain rescue teams, and climbers around the world.

4. Key Features

- **Climb-to-Earn (Planned):** Rewards for community participation in climbing or social campaigns.
 - **Charity Fee (0.2% per transaction):** Funded for climbing safety, donations, and rescue tools.
 - **Flexible Tax System:** Fees adjustable based on project phases (presale, launch, post-launch).
 - **Whitelist System:** Selected wallets are exempted from fees for efficiency and security.
 - **Manual Burn (Event-Based):** Token burns triggered by milestones.
 - **Staking-Ready:** Community staking mechanism planned for future development.
 - **DAO-Ready & Multisig:** Transparent governance via voting and multisig wallet options.
-

5. Tokenomics

- **Total Supply:** 100,000,000 RNJ (Fixed)
- **Token Type:** BEP-20 (Non-Mintable)
- **Auto Mint/Burn:** None
- **Distribution Breakdown:**

Allocation	Percentage	Amount
Presale & Sale	35%	35,000,000 RNJ
Liquidity Pool	30%	30,000,000 RNJ
Marketing & Dev	15%	15,000,000 RNJ
Founder & Team	10%	10,000,000 RNJ
Charity	5%	5,000,000 RNJ
Staking / Reward	5%	5,000,000 RNJ

Notes:

The 5% charity allocation is intended to support real-world initiatives, including safety equipment distribution, hiker training, and local aid programs.

Transaction Fee Structure:

Rinjani Token applies a light and transparent transaction fee of **0.6%**, divided as follows:

- **0.2% to Charity Wallet:** For safety, donation, and community programs
- **0.4% to Development & Marketing Wallet:** To fund growth, marketing, and partnerships
- **No automatic burn:** However, manual burn is available and activated based on specific events or milestones.

Whitelist Mechanism:

Selected wallets (deployer, charity, staking, DEX router, etc.) are exempt from fees for technical and operational purposes.

Fee Adjustment Policy:

The total fee can be adjusted up to a **maximum of 1%**, with full transparency and community communication.

Special Fee Policies:

- **Presale Phase:** 0% Fee (Zero Tax) — investors can buy RNJ with no deductions.
 - **CEX Listings:** No smart contract fee — to ensure smoother and more efficient trading.
-

6. Roadmap

Q3 2025:

- Smart Contract V2 Finalized
- Official Website & Whitepaper
- Telegram & X (Twitter) Community Launched
- Internal Audit & Public Review

Q4 2025:

- Presale (Whitelist Only)

7. Listing Plan & Community

We will initiate with DEX listings (e.g., PancakeSwap) post-presale. Our strategy prioritizes community building before entering centralized exchanges (CEX). Community members will play a key role in future decisions through transparent governance and voting mechanisms.

8. Transparency & Security

- **Verified Smart Contract** on BscScan
 - **Transparent Fees:** Max cap of 1%, currently only 0.6% active
 - **Manual Whitelist** for operational clarity
 - **Public Audit (optional)** prior to major listings
 - **Timelock & Multisig (optional)** for future governance and fund safety
 - **Presale Zero Tax & CEX Fee-Free Policy** ensures fairness and broad market adoption.

9. Final Words: Climb & Build Together

Rinjani Token is more than a crypto project — it's a movement. A movement to climb higher, give back, and build a meaningful ecosystem. Every token holder is a climber, stepping block by block toward a better summit. With the spirit of the mountains, we aim not just for price charts but for real-world impact.
