RINJANI TOKEN – FINAL WHITEPAPER (REVISED + Staking Excluded Fee)

———

1. **Introduction**
   Rinjani Token is a community-driven cryptocurrency created to honor the spirit of mountaineers worldwide and commemorate the legacy of Brazilian climber Juliana Marins at Mount Rinjani.
   Our mission is to unite global solidarity, promote climbing safety, and build an environmentally conscious community.

———

2. **Token Overview**
   • Total Supply: 100,000,000 RNJ
   • Decimals: 18
   • Blockchain: Binance Smart Chain (BEP-20)
   • Symbol: RNJ

Rinjani Token is a fixed-supply asset with no minting or burning functions after deployment.

———

3. **Token Distribution**
   Upon contract deployment, 100% of tokens are minted and automatically allocated as follows:

Allocation	Percentage	Total Tokens
Presale & Sale	35%	35,000,000
Liquidity Pool	30%	30,000,000
Marketing & Development	15%	15,000,000
Founder Allocation	10%	10,000,000
Staking Reserve	5%	5,000,000
Charity Reserve	5%	5,000,000

All allocations are distributed directly to their respective wallets.

———

4. **Automatic Transaction Fee**
   Rinjani Token contract implements an automatic 5% transaction fee distributed as follows:

Destination	Percentage	Wallet Address
Charity Reserve	2%	0x20eE4F30Aa9EC4b882de11E340CAA64F6D990833
Founder Reward	1%	0xa3C46B761EcAC8204f102A4D6bEa75d26948f07b
Marketing Fund	1%	0x4e5be48487a362b31c2423948709B5d7EAB92cAC
Development Fund	1%	0x34f1A501F4B482ebB32DC6cF822751B8C0B02B7c

Excluded from fee:
• Presale Wallet
• Liquidity Wallet
• Founder Wallet
• Staking & Rewards Wallet

5. **Vesting and Locking**
   Founder Allocation Vesting Schedule:

Unlock Schedule	Percentage Unlocked
Launch	30%
Month 3	15%
Month 6	15%
Month 9	20%
Month 12	20%

• Locked tokens are stored securely in the smart contract.
• Founder wallet can only claim tokens according to this schedule.

Founder Token Vesting Policy
Rinjani Token enforces a transparent vesting mechanism for the Founder allocation to ensure long-term commitment and project sustainability.

• Total Team Founder Allocation: 10,000,000 RNJ (10% of total supply)
• Initial Unlock: 30% (3,000,000 RNJ) distributed to the Founder wallet upon deployment.
• Locked Allocation: 70% (7,000,000 RNJ) held securely in the contract deployer wallet.
• Vesting Schedule:
  o 1st Unlock: 15% after 3 months
  o 2nd Unlock: 15% after 6 months
  o 3rd Unlock: 20% after 9 months
  o 4th Unlock: 20% after 12 months

Release Mechanism:
Founder tokens are not automatically released. The Founder wallet must manually execute the `unlockFounderTokens()` function in the smart contract after each vesting period has elapsed.

This ensures:

- No premature unlocking
- Full transparency (unlock events are publicly visible on-chain)
- Compliance with the stated vesting plan

———

6. **Airdrop Plan**
   Airdrops will be conducted transparently to build community engagement:

- Presale participant rewards
- Referral bonuses
- Community giveaways
- Influencer partnerships

Airdrop allocations will not exceed 5% of the total supply. All airdrop tokens will be sourced from the Presale & Sale and Marketing & Development allocations. No additional supply will be minted beyond the fixed total supply.

10. Dedication
Rinjani Token is a tribute to Juliana Marins, Agam Rinjani, the heroic rescue teams, porters, tour operators, and all climbers who have contributed to the spirit of Mount Rinjani.

Every initiative aims to honor their courage, dedication, and sacrifice.
We dedicate this project to the countless unsung heroes whose commitment keeps the mountain safe and accessible for all.

"Climb as safely and comfortably as you can."
— Agam Rinjani
